

Mental Health and Social Services School Questionnaire Content

This is a list of the major topics covered in the school-level mental health and social services interview. For more detailed information on the content of the study questionnaires, please visit the project web page at www.rti.org/shpps.

- mental health or social services offered to students
- school plans describing how to respond to students' mental health or social services needs after a crisis at school
- the availability of a Student Assistance Program
- the amount of time school guidance counselors, school psychologists, or school social workers spend at the school
- the participation of school mental health or social services staff in the development of Individualized Education Plans and Individualized Health Plans
- school guidance counselors, school psychologists, or school social workers teaching information on mental health or social services to students in classes
- facilities or equipment available for mental health or social services
- promotion of community awareness of school mental health or social services by school mental health and social services staff
- mental health or social services provided to students by non-school based organizations
- credentials that school guidance counselors, school psychologists, or school social workers are required to have
